## Animas River Emergency Response Action Plan

By  
Mark Quick  
Training Chief/Safety Officer  
Durango Fire and Rescue Authority

# New Business

- Review Text of Mission Statement

The mission of the AWP is to protect and improve the quality of water resources in the Animas Watershed. Values inspire us to create a community-based collaborative process involving all stakeholders in which we operate by consensus<sup>1</sup>, use all available data sources, and make informed decisions based on sound science.

<sup>1</sup>An effective consensus decision-making body strives to emphasize common agreement over differences and reaches effective decisions using compromise to resolve mutually exclusive positions within a group. Blocking consensus is considered to be an extreme measure, only used when a member feels a proposal endangers the organization or its participants, or violates the mission of the organization.

# New Business, cont.

- Ideas for Education Strategies and Outreach Goals (for Section 1)

# Date of August meeting

- back to the second Wednesday of the month: August 13?

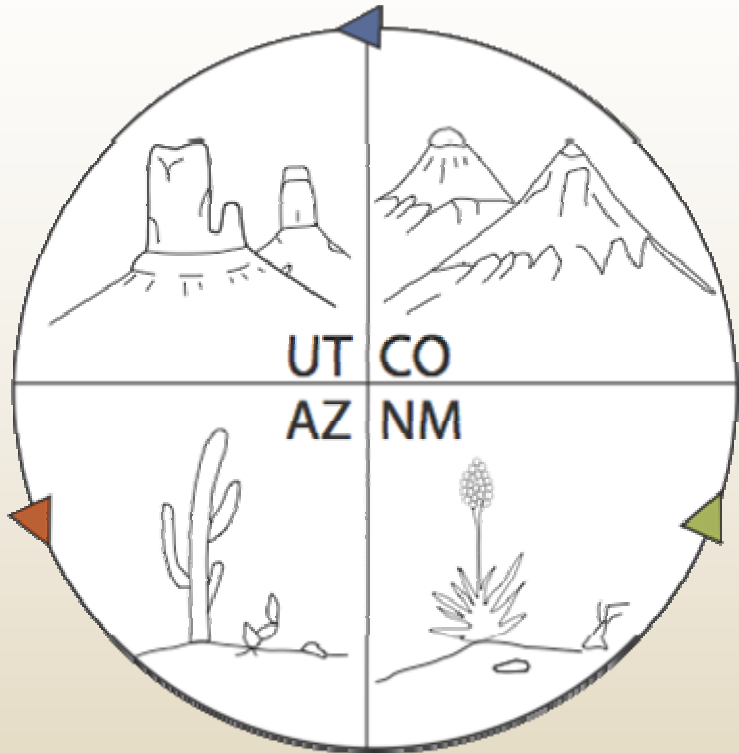

# Proposed Agenda Topics for August Meeting
